Healthcare Management & Consultancy

Helping you make the most from your investment

As more and more players enter the regional healthcare market, it becomes imperative that your hospital, clinic or healthcare business is well positioned to compete effectively. **Global Medical Solutions** offers customised clinical and non-clinical hospital management and healthcare consultancy services to help you achieve a strong market position.

We provide everything from strategy development and operational improvement services, through to total management of your healthcare facility. All our

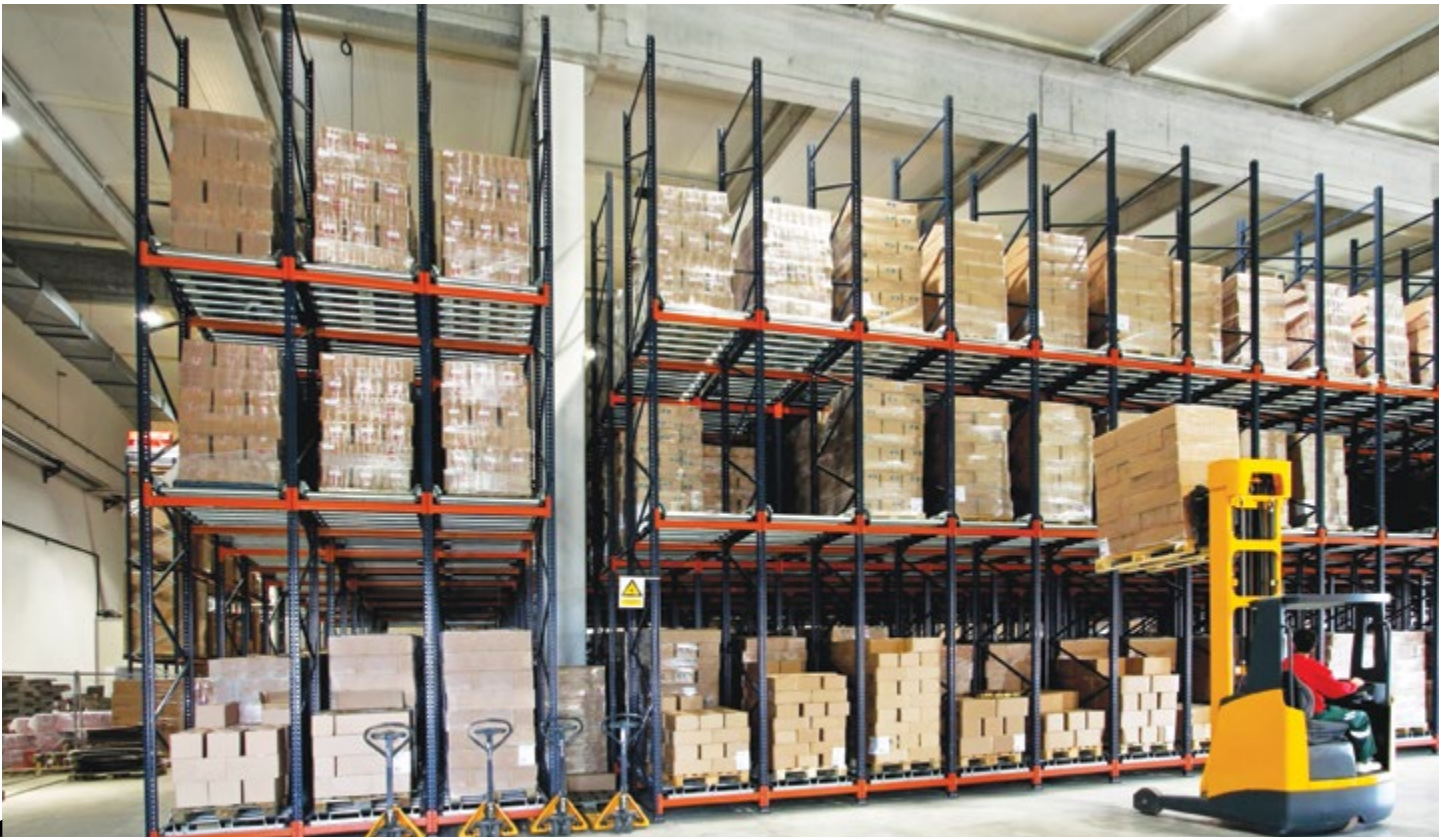

consultants are international healthcare specialists with experience in the private, government and military sectors and a true understanding of what is required to be successful. We combine our consulting skills with local expertise, vision and the practicality to develop functional solutions. Our approach includes a comprehensive assessment of the issues facing your organisation, a shared vision and strategy for moving forward, well communicated implementation and transfer of knowledge and skills to your staff for sustainable results.

Our services include:

- STRATEGY DEVELOPMENT AND STRATEGIC PLANNING
- FACILITIES MANAGEMENT
- CLINICAL TRANSFORMATION
- PROJECT MANAGEMENT
- BUSINESS IMPROVEMENT AND PROCESS ENHANCEMENT
- SERVICE LINE / BUSINESS PLANNING
